Summary

Aspiring Full Stack Developer and AI Enthusiast with a strong foundation in Python, Machine learning, Data Structures and Web Development. Passionate about leveraging AI and modern web technologies to build innovative applications and solve real-world problems

Education

2023 – Present	Malla Reddy Engineering College B.Tech in Computer Science and Engineering	(GPA: 8.95/10)
2024	Sree Dattha Engineering and Science Diploma in Computer Science and Engineering	(GPA: 9.75/10)
2021	ST. Venus High School (SSC) Class 10	(GPA: 10/10)

Skills

- **Languages:** Python, Java, C, JavaScript.
- **Web Technologies:** HTML, CSS, ReactJS, Node.js, Express.js.
- **Databases:** MySQL, Oracle, MongoDB.
- **Tools:** Git and GitHub.
- **Core:** Data Structures and Algorithms (DSA), Object Oriented Programming (OOPs) and DBMS.

Work Experience

Internship in NSIC (National Small Industries Corporation) Ltd.

May 2023

- I successfully completed an internship at the National Small Industries Corporation (NSIC), where I gained practical exposure to Python programming, Big Data concepts, Amazon Web Services (AWS), and Data Science foundations. During this program, I worked on Python-based projects and developed skills in data processing, cloud computing fundamentals, and analytical problem- solving. I gained hands-on experience in handling datasets, writing efficient code, and understanding real-world data workflows. Additionally, I enhanced my knowledge of clou-based services and their applications in modern software development. I demonstrated strong learning ability, adaptability, and maintained good performance throughout the internship.

Projects

Alumni Connect – Engineering College Alumni Platform

[Link](#)

Developed a full-stack Alumni Management Platform using Node.js, Express, and React to connect alumni and students. Implemented JWT-based authentication with role-based access (Admin/Alumni). Built modules including alumni directory, job portal, events, mentorship, and discussion forum. Designed a responsive UI and enabled features like search, job applications, and event registration.

Mid-Queue – Healthcare Queue Management System

[Link](#)

Developed a real-time hospital queue management web application using HTML, CSS, JavaScript and Firebase that allows patients to check in digitally and enables doctors to manage patient queues efficiently. The system supports emergency prioritization, live queue tracking, and appointment history management to reduce waiting time and improve hospital workflow.

Airlines Reservation System - Django

[Link](#)

I developed a web-based Airlines Reservation System using Django that allows users to search flights, book tickets, and manage reservations. The system uses a database to store passenger and flight details, ensuring efficient booking management. This project improved my skills in Python, Django web development, and database integration while building a functional reservation platform.

Gesture Controlled Virtual Mouse – Python

[Link](#)

Developed a Gesture Controlled Virtual Mouse using Python that enables cursor control through hand gestures using computer vision. Implemented MediaPipe and OpenCV to perform actions like movement, clicking and scrolling without a physical mouse.

Car Detection using OpenCV - Python

[Link](#)

Developed a Car Detection System using Python and OpenCV that detects and highlights vehicles in video streams using a Haar Cascade classifiers and computer vision techniques. The system processes video frames to automatically identify cars and draw bounding boxes around them, and it can be used for traffic monitoring, vehicle counting, and intelligent transportation system.

Certifications

- Completed Internship at NSIC (National Small Industries Corporation) Ltd. in AWS (Amazon Web Services), Big Data, Python, Data Science Foundation.
- Vishesh 2K25 – Achieved 2nd Prize at Project Expo for an innovative project (HACK-RAT).
- Completed Internship as a Junior Developer at Skilltimate Technologies.
- Completed Data Structures Training from TechAugusta Pvt. Ltd.
